English (Fluent)
isiZulu (Native)

PROFESSIONAL SUMMARY

Full-stack developer with 4 years building fintech web apps in TypeScript, React and Node.js. Cut page load times by 45%, built APIs that handle 2M requests a day, and ships features used by 200,000+ customers.

WORK EXPERIENCE

Software Developer Apr 2022 – Present
Jozi Pay (Pty) Ltd, Johannesburg

- Rebuilt the customer dashboard in Next.js, cutting load time by 45% and support tickets by 20%
- Designed Node.js payment APIs on AWS Lambda handling about 2 million requests a day at 99.95% uptime
- Introduced Playwright end-to-end tests, catching regressions before release
- Mentor 2 junior developers through code reviews and pair programming

Junior Developer Jan 2021 – Mar 2022
Cape Digital Studio, Cape Town

- Built React websites and dashboards for 12 retail and NGO clients
- Integrated PayFast and Yoco payment gateways
